## Simple to Stock

Eliminate SKUs with the most popular styles of products, all with Selectable CCT.

## Bulk Packed = Less Waste

Fewer boxes and instruction sheets to dispose of on your job site.

## Quick Ship

Items eligible for Nora's New Quick Ship Program!

# NORA<sup>®</sup> LIGHTING

Today, contractors are purchasing sub-par products because of aggressive price points only to have upset end users and frustrated distributors when product lacked quality and performance.

Nora Lighting recognized the need to bridge the gap between price and quality, and the Nora Contractor Series was our answer. The Nora Contractor Series product line-up is concentrated on everyday distributor stocking items that are specifically designed to ensure an exceptional value to the contractor without a sacrificing quality product.

These items ship quickly, are bulk packaged to eliminate waste and provide multiple SKUs in one item with selectable CCT - making them an ideal choice for busy contractors and distributors alike.

Nora Lighting leveraged its over 35-year history in designing and manufacturing high quality LED and non-LED residential and commercial lighting to bring this series to light. Our humble beginnings as a company are at the core of how we make choices and how we operate and thrive as a business. This enables us to listen and provide the right product to meet the needs of distribution.

At Nora Lighting we stand by our product and our company's mantra of:

***Large enough to do it right, small enough to care.***

**FEATURES:**

- Deep cone reflector with dead front trim
- No housing required and includes pre-wired junction box
- Quick installation and cost savings
- Dimmable to 10%
- Five color temperature switch on remote driver
- IC rated for direct contact with insulation
- Air-Tight rated for energy savings
- cETLus listed for wet locations
- Mounting accessories and battery back up available
- 5-Year limited warranty

**ACCESSORIES**

Universal New Construction Frame-In for 4" Downlight only  
**NF-R246**

New construction frame-in can be used to assist installing can-less recessed downlighting. Helps indicate wiring location and cutting guide.

New Construction Frame-In with Collar for 4" Downlight  
**NFC-R430**

New construction frame-in can be used to assist installing can-less recessed downlighting.

New Construction Frame-In with Collar for 6" Downlight  
**NFC-R55**

New construction frame-in can be used to assist installing can-less recessed downlighting.

Emergency Battery with Remote Test Switch  
**NEPK-20LEDUNV**

120-277V Emergency battery operates luminaire for 90 minute emergency operation with a fully charged battery. Requires 24 hours to for full charge.

Quick Connect Extension Linkable Cables  
**NEFLINTW-EW-4** 4' Cable  
**NEFLINTW-EW-20** 10' Cable

Use to extend the length between luminaire and driver enclosure.
