

T-LINE LED LINEAR

Tunable Track

Tunable T-Line linear series allows the end user to select between 3000K, 3500K or 4000K at the time of installation with a 3 position switch. Luminaire runs parallel to the track for a uniform appearance and bright illumination up to 3200 lumens. Tunable T-Line includes a diffused lens for glare control and even illumination. Optional asymmetric and double asymmetric lenses make the T-Line an excellent solution for wall washing, sign and aisle lighting. Add the optional visor to conceal the light source when using the asymmetrical lens. An exceptional product for retail, commercial and hospitality applications.

FEATURES

- Selectable CCT - 3000K, 3500K or 4000K at 90+ CRI
