

LED CENTER BASKET TROFFER

2x2, 2x4 & 1x4 New Construction or Remodel

NSpec's energy-efficient and economical Center Basket LED Troffer produces an incredible amount of smooth and uniform general lighting. The fixtures include a diffused, removeable lens, a hinged access plate with LED board and built-in earthquake clips. The shallow housing design and easy access wiring plate make the Center Basket Troffer a quick installation. Ideal for use in task areas where general illumination is desired such as offices, schools, conference rooms, libraries, retail, hospitals and others.
