ELECTRICAL CONNECTIONS

Connect wires accordingly:

- Black Wire = Live (Hot)
 - White Wire = Neutral
 - Green or Copper Wire = Grounding Junction Box Wire
- 0-10V Wiring:
- Purple = Dim (+)
 - Pink or Grey = Dim (-)

NOTE ON GROUNDING: Many structures carry grounding via steel conduit. If this is the case, if there is no grounding wire, simply leave green wire on fixture unattached. Fixture will be grounded through attachment of conduit to junction box. However, if Romex or PVC conduit is used, ground wire will always be present, and must be connected to green wire on fixture junction box to avoid electrical shock hazard.
