

LED Wraparound

Surface or Pendant Mounted

Selectable Lumens & CCT

Industrial LED Wraparound luminaires include two integral switches for lumen output and selectable color temperature. Ideal for commercial, residential, industrial, and retail applications, such as; stairwells, hallways, garages, schools, offices, and more. Easy to install and great for replacing outdated fluorescents with an energy efficient, cost saving alternative. The luminaire's lens is designed to uniformly spread and soften the appearance of the light while maximizing its distribution and output.

FEATURES

- 120-277VAC input; 0-10V dimming
- 47.5" length and white finish
- Selectable Lumens (7000lm / 7500lm / 8000lm)
- Selectable CCT (3000K / 3500K / 4000K)
