

# LED FRAME LIGHT

2'x2' & 2'x4' Ceiling Grids  
Selectable Lumens & CCT

LED Frame lights create a modern aesthetic without sacrificing performance. Each perimeter fixture comes pre-assembled and ready to install in standard drop ceiling grids. Remote drivers include **two Selectable Switches** to change the color temperature and brightness. Universal input (120-277VAC) and dimmable with compatible 0-10V dimmers. No cutting is required and ceiling tile sits inside the frame light.

## FEATURES

- One-piece construction, no assembly required!
- Easy installation without cutting tiles
- 120-277VAC input; 0-10V dimming
