

Z-TRACK HEAD

Zoomable Optics

Five Selectable CCT Switch

Delivering up to 1550 lumens

Zoomable Track Head offers aesthetics, flexibility and performance. Delivering up to 1550lm and featuring a field-adjustable beam angle from 20° to 50°, it provides precise light control for any setting. Each luminaire available in five selectable CCTs, which allows easy color temperature adjustment from 2700K to 5000K, making it ideal for diverse applications. Perfect for retail, galleries, and commercial spaces, this innovative fixture seamlessly adapts to both accent and general lighting needs.
