INSTALLATION INSTRUCTION

⚠️ TURN OFF MAIN POWER BEFORE INSTALLATION

1

Twist the TIR Optic counterclockwise to remove it from the housing

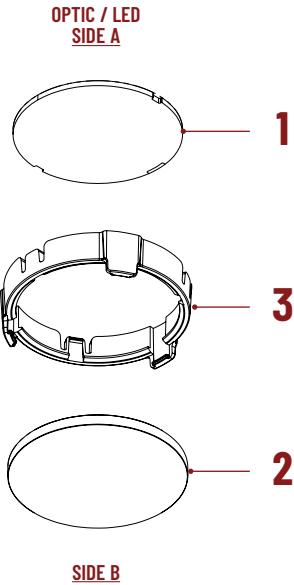

2

When adding/changing accessories, snap the accessory into the holder with the smooth side facing away from the Optic/LED

ITEM	SIDE	ITEM NUMBER	DESCRIPTION
1*	A	NAPL-3WIDE	Flood Lens
		NAPL-3LINEAR	Linear Lens
		NAPL-3DIFF	Diffused Lens
		NAPL-3SQUARE	Square Lens
2*	B	NAPL-3SOLITE	Solite Lens
		NAPL-3HEX	Hex Louver
3**			Accessory Holder

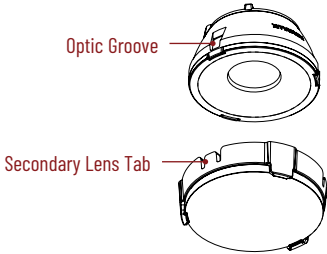

* Lenses are designed for one side, they cannot be used on the opposite side of the holder.
Maximum one lens per side.

** Accessory holder is included with each lens or louver

3

Align the tabs on the accessory holder to the groove of the TIR Optic. Press firmly until the lens snaps securely into place.

4

Insert the optic back into holder and twist clockwise to lock securely it in the housing.
