Installation Instructions

NLSTRSW

LED Strip Light with Selectable Lumens & CCT

READ PRIOR TO ATTEMPTING INSTALLATION
ALWAYS TURN OFF MAIN POWER BEFORE INSTALLATION
INSTALLATION SHOULD BE CARRIED OUT BY YOUR LOCAL ELECTRICIAN

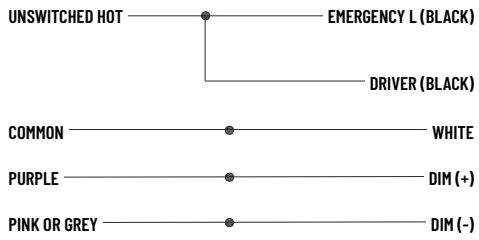

⚠ **WARNING** - Risk of fire or Electric shock.

- To reduce the risk of fire, electric shock or injury to persons; read and follow all warning and installation instructions before installing.
- All installation should be performed by a qualified electrician.
- To avoid electric shock, ensure power is turned off before installation.
- All wiring must be installed in accordance with all Electrical Codes.
- To prevent product malfunction and/or electrical shock, this product must be properly grounded.
- Suitable for non-insulated frame. DO NOT cover fixture with insulation liner or similar material.
- DO NOT install fixture on unstable or easily breakable surface.
- DO NOT exert force on the surface of the fixture.

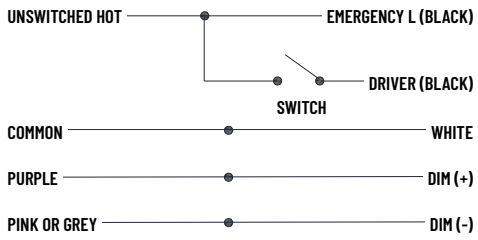

⚠ **AVERTISSEMENT** - Risque d'incendie ou de décharge électrique.

- Pour réduire le risque d'incendie, de décharge électrique ou de blessure, lire et suivre les avertissements et les instructions d'installation avant d'installer le produit.
- L'installation doit être effectuée par un électricien qualifié.
- Pour éviter toute décharge électrique, s'assurer que le courant est coupé avant de procéder à l'installation. Tout le câblage doit être installé conformément aux codes de l'électricité.
- Pour éviter le mauvais fonctionnement du produit ou une décharge électrique, ce produit doit être correctement mis à la terre.
- Convient à une surface et à un cadre non isolés. NE PAS recouvrir le luminaire d'une doublure isolante ou autre matière similaire.
- NE PAS installer le luminaire sur une surface instable ou facilement cassable.
- NE PAS exercer de force sur la surface du luminaire.

EMERGENCY WIRING WITHOUT SWITCH

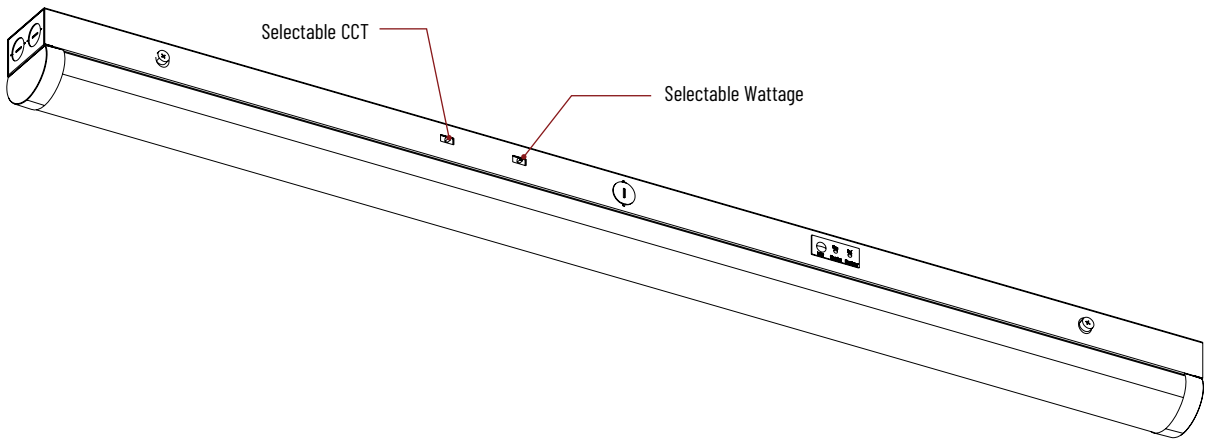

EMERGENCY WIRING WITH SWITCH

SELECTING COLOR TEMPERATURE

NOTE: Luminaire is preset to 3000K / highest wattage setting. Select color temperature and wattage prior to installation, as they may have been changed in shipping or handling.
1. Color temperature and wattage can be changed by toggling the switches located on side of the luminaire.

SURFACE MOUNT INSTALLATION

⚠ TURN OFF MAIN POWER BEFORE INSTALLATION

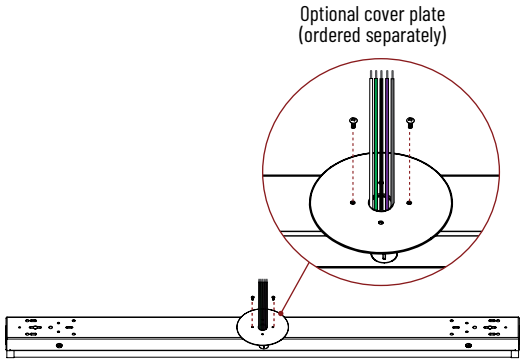

1 Install appropriate anchors (not included) into the ceiling or wall, if needed.

2 Pinch spring buttons near both ends of the luminaire to remove the lens.

3 Optional junction box cover plate (ordered separately: NLSTRA-JBCW) may be used.

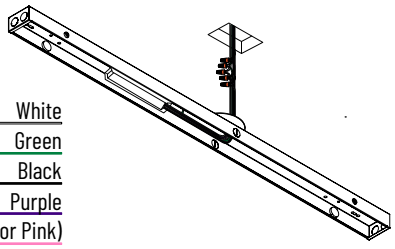

4 Route power cord through cover plate and wire accordingly with wire nuts inside junction box: (Figure 4)

- Black (120-277V) = Supply Voltage
- White = Neutral
- Green or Copper Wire = Grounding Junction Box Wire

0-10V Wiring:

- Purple = Dim (+)
- Pink or Grey = Dim (-)

Neutral	White
Ground	Green
Line	Black
Dim (+)	Purple
Dim (-)	Gray (or Pink)

SURFACE MOUNT INSTALLATION

⚠ TURN OFF MAIN POWER BEFORE INSTALLATION

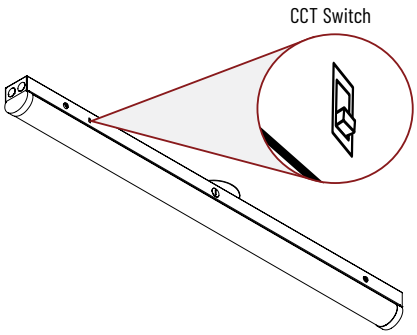

5 Secure luminaire to the mounting surface using appropriate hardware (not included).

6 Replace the lens by pushing upward and secure with spring buttons.

7 Change color temperature to desired CCT. Switch is located on the side of each luminaire.
Note: Luminaire is preset to 3000K and may have been changed in shipping / handling / installation.

PENDANT MOUNT INSTALLATION

REQUIRES: NLSTRA-PK (ORDERED SEPARATELY)

1 Attach aircraft cable to each hook (ordered separately: NLSTRA-PK) and insert hooks into the mounting holes.

2 Attach the aircraft cable to the ceiling and adjust lengths until luminaire is level and secure.

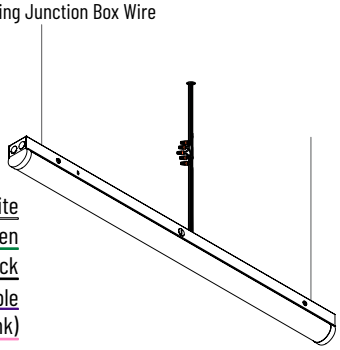

3 Route power cord and wire accordingly with wire nuts inside junction box: (Figure 2)

- Black (120-277V) = Supply Voltage
- White = Neutral
- Green or Copper Wire = Grounding Junction Box Wire

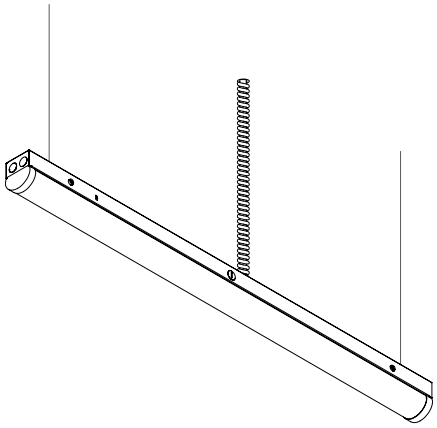

0-10V Wiring:

- Purple = Dim (+)
- Pink or Grey = Dim (-)

Neutral	White
Ground	Green
Line	Black
Dim (+)	Purple
Dim (-)	Gray (or Pink)

4 Attach conduit (not included) to luminaire.
